## ACKNOWLEDGMENTS

The following individuals are acknowledged for their contributions to the monitoring efforts and production of this document.

King County Environmental Laboratory: John Blaine provided technical coordination for offshore sediment sampling. Judy Ochs provided technical coordination for water sampling and Kevin Li provided technical coordination for intertidal and benthic infauna sampling. Katherine Bourbonais provided coordination for the Marine Outfall Siting Study (MOSS) analytical work. The efforts of the field sampling crew and analytical laboratory were greatly appreciated.

The following individuals contributed written material to the report: Scott Mickelson of the King County Marine Monitoring & Assessment Group (water column metals and organics), Daniel Smith of the King County Marine Monitoring & Assessment Group (sediments, shellfish, and macroalgae), Kimberle Stark of the King County Marine Monitoring & Assessment Group (Sections 1 and 2; water column bacteria, conventionals, and nutrients), Mike Burger of Parametrix Inc. (CTD transect data), and Striplin Env. Associates (benthic infauna).

Amanda Babson of the University of Washington provided all the CTD transect Matlab plots in Section 4 and also conducted the post-processing of all CTD data. Paul Wagar of the University of Washington generated tables for beach water metals data.

Scott Mickelson provided coordination for the Marine Outfall Siting Study (MOSS) field sampling effort.

The time and efforts of the following reviewers were also appreciated: Randy Shuman (Supervisor of the King County Marine Monitoring & Assessment Group and Project Manager for the MOSS project), Betsy Cooper (Coordinator of King County's Wastewater Treatment Division's NPDES program), Doug Henderson (King County Regional Water Resources Services), Jim Simmonds (King County Regional Water Resources Services and Assistant Project Manager for the MOSS project), Scott Mickelson, King County Environmental Laboratory staff, and Wally Trial (Herrera Env. Consultants).

Underwater photographs on the front cover were taken by Randy Shuman.

Kimberle Stark, Marine Monitoring Project Coordinator, organized production of this report.
